### ABOUT

Mark your calendars now for two days of networking and education in the heart of Canada. The IES presents this two-day lighting conference and offers you the opportunity to attend advanced level sessions presented by industry experts. With polar bears at the Thursday night reception and the Canadian Museum of Human Rights as the amazing educational venue, you won't want to miss this event. Dates were chosen to allow attendees to stay and enjoy the local Festival Du Voyageur events before or after the conference.
